

CORK & GASKET MATERIAL

The **CK-115** is a rubber and cork blend sheet. It is manufactured to the AMS-C-6183-Type 1 class 1 Grade B spec. This material is intended to be used for cutting and making gaskets. It is unaffected by aromatic fuel which is what makes it work extremely well as fuel system gaskets. It is sold in a 36" x 36" sheet and available in several different thicknesses.

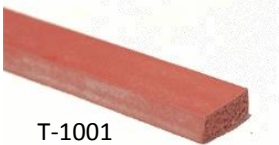

| Part # | Dimensions |
|-----------------------------|-------------------|
| CK-115-1/32 | 1/32" x 36" x 36" |
| CK-115-1/16 | 1/16" x 36" x 36" |
| CK-115-1/8 | 1/8" x 36" x 36" |
| CK-115-1/4 | 1/4" x 36" x 36" |

SILICONE SPONGE SHEET & CORD

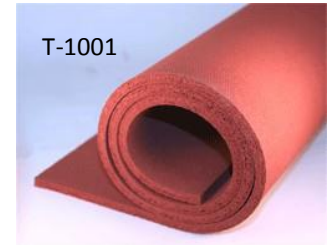

SIL-X-Cord

Our Silicone sponge material is available in either a sheet size, cord, or a bar stock. All of our material is a closed cell medium density sponge. It is a silicone material, which gives it a high service operating temperature of -65 F to 550 F. The sheet material has a fabric finish where as the cord and bar stock has a smooth plate finish.

WIND LACING

Wind lacing is the material that is used to finish off the interior of the plane around the doorjamb. It not only is an interior trim piece that adds to the look and finish of the plane but it also helps reduce the wind noise around the door of the aircraft. This material is constructed of faux leather sewn around one of our neoprene cords. Since this a custom item we are able make it with a 3/16" to 1" bulb. All pieces come in a 12 foot length. This material meets the FAR 25.853B burn specification. Available colours are White, Blue, Grey, Tan, and Black.

All wind lacing is sold in a 12 Ft Package. **CLICK THE COLOUR OPTION BELOW FOR PRICING AND AVAILABILITY**

| Part Number | Size | Available Colours |
